TASTING NOTES

MATURATION

The grapes are machine harvested, de-stemmed and crushed. The must is pumped to a fermentation tank, followed by active dry yeast rehydrated. During fermentation, open pump-overs are made to enhance fruitiness, keeping controlled temperature at 24-27°C during 7-10 days. The pressed wine is kept separate. Part of this blend underwent micro oxygenation technique. Malolactic fermentation usually occurs naturally.

NOSE

Fruity aroma of red cherries, berries, violets and plums.

PALATE

Sweet, clean and round attack. Mid palate is round and juicy with red cherries. Soft and clean finish with pleasant aftertaste.
